REVENUE CYCLE & PATIENT ACCESS SPECIALIST | EPIC EHR | RCM OPERATIONS | REMOTE

Rolesville, NC · (252) 885-8393 · charliehineswhite@gmail.com · LinkedIn

PROFILE

Revenue cycle and patient access specialist with 12+ years of front-end RCM operations experience at a 300+ bed acute care facility. CHAM-certified with an MBA in Healthcare Management (UNC Wilmington, 2025). Hands-on proficiency across Epic (Prelude, Cadence, Resolute, Benefits Engine, Referrals), Cerner, Availity, and multiple prior authorization platforms — including participation in Epic upgrade and go-live cycles. Department processes **$3.6M+ annually in point-of-service collections.** Deep expertise in denial prevention, insurance verification, prior authorization workflow design, and staff training. Seeking fully remote RCM analyst, revenue integrity, or patient access specialist roles.

EXPERIENCE

Patient Access Manager

UNC Health Nash, Rocky Mount, NC — *Aug 2019 – Present*

- Subject matter expert for front-end RCM operations at a 300+ bed acute care facility — department processes **$3.6M+ annually in point-of-service collections** across scheduling, insurance verification, prior authorization, financial clearance, and arrivals
- Epic module lead across Prelude, Cadence, Resolute, Benefits Engine, and Referrals; participated in system upgrade and go-live cycle; designed and delivered workflow training for clinical access staff
- Designed and implemented department's first KPI tracking framework, creating visibility into registration accuracy, clean claim rates, authorization turnaround times, and POS collection rates
- Redesigned prior authorization and verification workflows to reduce front-end claim denials; primary escalation resource for complex payer disputes, coverage gaps, and authorization issues across multiple service lines
- Built onboarding and compliance curriculum covering HIPAA, EMTALA, and payer-specific protocols — reduced new hire ramp time and improved registration error rates
- Sustained **95%+ patient satisfaction scores** through service recovery protocol design and patient financial counseling process improvement

Patient Access Supervisor

UNC Health Nash, Rocky Mount, NC — *Aug 2016 – Aug 2019*

- Built KPI tracking infrastructure for registration accuracy, POS collections, and authorization turnaround — first formal performance visibility system for the department
- Standardized verification and authorization workflows; identified and resolved root causes of eligibility-related denials pre-submission
- Maintained 95% patient satisfaction through process-driven service recovery and workflow standardization

Team Lead, Patient Access

UNC Health Nash, Rocky Mount, NC — *Dec 2015 – Aug 2016*

- Resolved billing discrepancies, coverage gaps, and authorization issues pre-submission — improving first-pass clean claim rate and accelerating collections
- Primary escalation for complex payer disputes; increased first-contact resolution rate across multiple payer types

Patient Access Representative

UNC Health Nash, Rocky Mount, NC — *Dec 2013 – Dec 2015*

- High-volume registration, insurance verification, and eligibility confirmation; recognized org-wide for patient service

Revenue Cycle Lead

Novant Health, Winston-Salem, NC — *Apr 2010 – Mar 2011*

- Billing resolution across 200+ practices; promoted to escalation team for root cause analysis and payer negotiation
